Jump In!

Ian Whybrow and David Melling

Miss Lollipop takes her car on a journey from the river to as far as India and Africa where she is joined by many exotic creatures who just "jump in" along the way. Just how many animals can Miss Lollipop squish into her truck, and just how big can the animals get?

BEFORE READING...

- ▶ Look at the front cover and see if your child can recognise the animals.
- ▶ Ask your child to help you point to each animal and count how many they can see on the front cover.
- ▶ Flip to the back of the book and read the blurb to your child.

WHILE READING...

- ▶ Ask your child to make the different animal noises, adding more sounds on each page as more animals jump in.
- ▶ Point out the colourful illustrations that tell the story. Laugh along with your child as the book becomes silly and humorous.

AFTER READING...

- ▶ Get your child to draw their idea of each animal that jumped into the truck or look for colouring in pages featuring animals.
- ▶ Do some further research with your child through books, videos and google search to see what each of the animals look like in real life.
